I have been playing roblox games for about two years now. I started out with one of the mini-games (Hotel Tycoon 2). This game was very simple; all you had to do was buy a hotel and look after your guests. As time went on, my friends and I found a new game we wanted to play together (Battlefield 3). It was similar to Call of Duty with better graphics. We liked the game so much that we wanted to transfer our characters

from Hotel Tycoon 2 into Battlefield 3. One night, my friend and I were playing on Roblox and entered into a "lobby". In a lobby, you can find friends who are online playing games or creating new ones. We had two other friends join in and we started talking about which game we wanted to play together. The next day we all decided on Robloxian Life.

Roblox was launched as a free download with the name of ROBLOX Studio on April 15, 2021. I love this game it is amazing! I like the way you can make friends easily with nicknames and when you try to play a game you don't have access to there are always glitches, but I LOVE the idea of making the games harder by having three stars or more (like an adult version of Warcraft) but it needs to be stopped from players trying to get a lot of coins for their accounts, because there are some that have 100s of dollars for their accounts and they're selling them...and also about the prices, I put two dollars on Roblox I cannot use it because all transactions done here is done in dollars. -I would love if Roblox had a marketplace because it could exchange items and in Roblox the avatar is still the same as it was on a website but I wish there were live avatars in my profile

One of the most popular ROBLOX games was "Hacker Escape", which was one of the most visited blogs on ROBLOX prior to 2021. It was a game where the hacker got

into an abandoned house, and used numerous exploits to obtain admin privileges, allowing him/her to modify certain aspects of the game. This blog caused heavy controversy in 2021 because it allowed hackers to manipulate and change the settings on their games without consent from ROBLOX. However, after the release of version 1.0, this blog became outdated because developers started using hacks in their games that had not been discovered yet. Roblox has been criticized for letting users access mature content, such as nudity, on the platform. In March 2021, it was reported that there were multiple nude characters on Roblox. The game had a character that was wearing only underwear. The character also had private parts that could be exposed to other players. This resulted in a large number of complaints being submitted to the company and they responded by making the character wear pants. However, the character then became fully covered and was unable to be exposed in this manner anymore.

Many of them are "clones" of other players' games made by other players, which can lead to copyright issues if the original creators do not want to share their work. Players may be able to report these games as well as block people who play them from their online profiles or in-game friends list.
