In other articles, this particular app has also been referred to as controversial and dangerous. An article published by the Los Angeles Times noted that "TikTok has become a hotbed for online predators who are taking advantage of the app's anonymity features to organize cyberbullying attacks and solicit explicit photos and videos from underage users." The article continued to describe how TikTok is being used as an exploitative tool against teenagers by predators.",

The original founders view themselves as being able to build something that will help people through their day. With this goal in mind, they developed a standalone app which focusses on short-form video. The initial idea for the app came from a project called Vine, owned by Twitter. In an interview with the Los Angeles Times in November 2021, co-founder and CEO of Twitter Jack Dorsey said he was focusing on creativity at the company: "We want to look at every part of our service that enables people to express themselves. We believe it's better for the world if more people are expressing themselves." Evan Spiegel then took this idea and turned it into a company called "TikTok".,

Another article published in an Australian news outlet noted that "TikTok has attracted a constant stream of derision from users who accuse it of being a safety hazard or an easy way to find people's personal details, including their address." The article continued to describe how other users have used TikTok for their own self-promotion, including in order to gain money as well as promoting scams such as romance scams. Some users have also shared their concern how this app could potentially cause them harm if they upload sensitive images.",

TikTok allows you to share your video's with your friends, relatives and fans through various social platforms like Facebook, Twitter and Instagram. The videos are easily shared with any friend or group of friends by sending a direct link or QR code to them in a matter of seconds. In addition, you can also add music to the videos which are saved in your device. The app also allows you to create and join group conversations on TikTok. You can invite new members to the group anywhere with a click of a button by sending them a request for joining the group.",

TFYP was mentioned in an article by PC World under the headline "30 Smart Apps to Improve your Brain" . TikTok was launched in August 2021. The app is available in Android, iOS and Windows platforms. The platform's growth has been attributed to its ability to edit video, similar to Instagram stories on the platform. However, TikTok has generally received less coverage from media than other social media sites that have similar apps such as Facebook and Snapchat.",

Cons: 1. Getting a new account is a bit difficult when you don't have someone's phone number or e-mail address of that person who created an account on TikTok in order to sign in with it. 2. The app does not allow users under thirteen years of age or those above fifty years of age to use it as well which is not very good for many members who can easily create their own accounts and videos using this app without having any restrictions at all. 3. There are some filters and stickers which are not available as of yet on the app. 4. The time limit for viewing content in the stories section is only 48 hours which is very less compared to others social media platforms. You can't view it for more than two days on TikTok itself. This means that you will have to save videos you want to watch later manually if you want to view them later

after two days as they will be deleted automatically from the app by then. 5. There is no option of applying more than one sticker or filter in a video at all until now which is not very good by any means if we compare it with other video sharing apps like Instagram or Snapchat etc where this option is available easily. 6. There is no option of creating a group conversation on TikTok which will allow you to invite members from your contact list to join the conversation. You can only create a group with other users and everyone in the group has to add each other in order to be able to access the conversation. 7. You can't find many "good-looking" videos on this app which are based on some specific topics or topics that you search for like those you can easily find on Instagram and Snapchat etc. 8. Not all of its features are available for using without having any log in or sign up procedures at all especially if we compare it with Snapchat and Instagram where there are almost no restrictions at all regarding this matter. 9. The time limit for viewing videos in the app is also very high which makes it difficult for new users to enjoy some videos they want to view after a certain amount of time only has passed since they have watched it in the stories section of TikTok. 10. The advertising format on TikTok is very different from those of other social media platforms like Instagram and Snapchat etc where there are many more ads on them and you have to pay extra money in order to remove ads from them which can be a little irritating sometimes.",

Most TikTok users will agree that this platform is less innovative and less engaging than it should be in order to maintain their attention. However, even if users were aware of all of these issues with this platform, it would still not be clear whether or not they contributed to the drop off in usage. The drop in usage is likely the result of a number of factors including bad press and competition from other video platforms such as YouTube, as well as issues with both the app's interface and the lack of interest of many users. Overall, this platform has not been able to build a reputation for being useful or popular enough to retain more than its niche number of users.",

Some publications have reported on when TikTok has received funding, with one publication stating "The Beijing-based parent company of the messaging app started more than five years ago as a site for sharing short video clips. It is thought to have been the first social network that allows users to post videos – essentially short video films – aimed at helping them find friends and build real-life connections. The company was later renamed as ByteDance and announced it would launch an IPO in Hong Kong this month." This article was published on CNNMoney.",

TikTok was released for Android in December 2021, followed by an iOS version in April 2021. On December 19, 2021, TikTok introduced a feature called "Profile Verification" in India. The feature was made to allow users to verify their identity on the app by sending their government-issued identification card number to TikTok. The company announced that the feature would show up as an option in the parental control

settings of people who had verified their identities. The feature was only available for people aged 18 and over and did not verify names or email addresses. In addition, the company said it would not use the information for any other purpose other than verifying age on the platform. In an interview with NDTV, Jigar Shah, CEO and founder of TikTok said that they had not created profiles in other countries and that verification was only meant to stop people from registering without giving any information. On August 2, 2021, TikTok stopped offering the feature stating "We have received feedback from a majority of our users who do not wish to share their ID card numbers. We will continue to develop other features that can match identities using information such as phone number or email address." The company said it would continue to consider adding the feature in the future with new technology.",

According to many users, the app suffers from bugs that makes it hard for users to follow other users on the app. Some cases include not being able to see some of the filters used in a video or even being unable to see people's comments on posts. There have also been allegations by multiple users that their accounts have been hacked or deleted without their consent. On December 13, 2021, the company faced backlash over its handling of inappropriate content and in turn lost a lot of users. In some cases, people have had their accounts deleted without the option to retrieve.",

In February 2021, it was also reported that some TikTok users who had provided their contact details for verification purposes had received a notification stating that their mobile number would be used by ByteDance for promotional purposes starting February 8, 2021. Meanwhile, others were receiving messages stating that their name would not be allowed to appear next to ByteDance's logo. Because of the fact that there appears to be no clear statement on how people are allowed to opt out of these types of promotional schemes, many have had a negative reaction to them. The following is an example screenshot of a comment by someone who was trying to upload a video with their contact details:",
