In Minecraft, players are able to build huge structures where they could live for days or even weeks without seeing another player on another computer unless you far away from their view range. The only way to become visible on the server is by breaking certain blocks such as fences and most trees which causes a noise that will attract other players to your location. If the player is the first one at a piece of land upon joining, then it will be owned by them. If another player sees that first person at the location and decides they want it, they can kill them and then claim ownership.",

The game utilizes a block-based mining and crafting system. As in Minecraft, players can gather resources such as blocks of wood, stone, ores, plants, and foodstuffs from the environment to use in crafting. While players are able to craft a variety of basic weapons such as axes and swords using these materials, they will need to gather blueprints for advanced items such as firearms and explosives. The game features combat between players where every player has access to health regeneration; this prevents battles from lasting indefinitely and makes it more viable for players to attack each other with melee weapons instead of guns.",

The gameplay in Minecraft is great, but nothing can beat the feeling of being able to make a zombie run through a field with a machine gun and shoot your friends. There are no rules in Minecraft, which means that you can do whatever you want. Although it is tempting to download those mods that will let you kill your enemies, or add more weapons in the game, it is not recommended because it can be hard to tell which

mods are safe to download. Plus, you could end up with some malware on your computer if you don't know what you are doing. It is much better if you choose mods that add something else to the game instead of changing how things work. In my opinion, one of the best mods to download would be N.P.C (non-playable characters) mods. The mod is basically a bunch of programs that you can add to your game, and they will make it much more interesting than it already is. There are plenty of N.P.C mods out there, but one I have found to be very interesting is the Steve mod. The Steve mod allows Minecraft characters (like the player) to run around on their own and move in any direction they want " all you have to do is give them a path to follow by making blocks for them to walk on.",

Some of the first mods were just new items which let players add new items into their game. This is a big deal because it's easy to overlook the small things when you're playing Minecraft. No one wants to miss out on anything, so new items make the game much more interesting and can take it up to new levels. More Info Download: MINECRAFT MODS",
