them. The real issue is that the developer(s) of both games are making a ton of money from people who don't care about winning or losing, they just want to have fun.

Roblox cannot afford to go down the path of Farmville. They need to remain an open

source program for everyone, where people can come together as equals and play fun games without being forced to pay money to be able to continue having fun within their virtual world. People who think they can't afford to pay should just get used to not having an ROBLOX account because that's what's happening. People are being kicked off the server by player banning.

Farmville: This is yet another example of a game that doesn't really offer any value at all but still manages to make a ton of money. It's a very bizarre concept which involves fun because you think you're going to become rich by buying fake farm products and selling them or you can become popular by posting pictures of your fake farm products and getting attention from people who want similar things. I mean, if this is what people want then it's really no different than Roblox except with Farmville you're dealing with real money.

Parents can also choose what games their kids can play, or even disable chat so other players can't talk to their child. It allows players to set a game rating they are comfortable with, so that they can choose between games.

This user was not banned from the site for a long time, which attracted hordes of people to his server. The servers would become infested with bots, cheats, hackers and other fraudulent activities that it slowed the game for everyone. Hacking Roblox is a problem that will always exist. This is because there are many different forms of hacking that are constantly evolving. One of the most common methods of hacking Roblox accounts today is through phishing. This method involves an email being tailored to look like it came from a trusted sender to gain access to a person's account and information such as passwords, usernames, mother's maiden name, Robux balance, etc. Another way that hackers hack into Roblox accounts is through using proxy sites. This method involves people using websites that offer their own proxies in order to hide their inputs and output information from the public eyes. People can hack a password by using the obtained information from other websites and then use an automated script to guess the password. This method is not only used for Roblox, but also for other accounts that are associated with games.
